IN THE CLAIMS: Col. 12 line 57

Claim 25 should read as follows:

-25. The method of claim 23 further comprising informing the user of one or more steps to undertake to place the computer software application in a proper state to perform the operation.
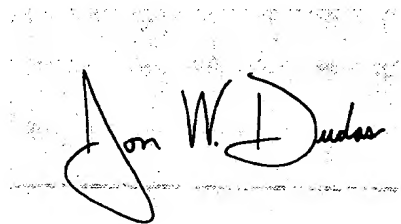

Col. 14 line 21

Claim 38 should read as follows:

-38. Machine-readable instructions, embodied in a tangible medium, for causing the machine to perform operations comprising:

enabling a computer software application to record a sequence of one or more user-activated operations performed within the computer software application in connection with a help topic; and

enabling a user to generate one or more help files that specify help content to be presented within a help facility and at least one interactive link that, when activated, invokes an operation via an application programming interface of the computer software application to cause the computer software application to perform the recorded sequence of one or more operations to effect the one or more user-activated operations if a state of the computer software application is compatible with the one or more user-activated operations.
